

Frontiers in Cosmology and Gravitational physics

Institute of Cosmology and Gravitation
University of Portsmouth

20-23 May
2024

Quantum gravity • Early universe • Gravitational waves • Galaxy surveys • Black holes • New physics signatures • Observational cosmology

Confirmed Speakers:

Clare Burrage (Nottingham U.)

Ruth Durrer (Geneva U.)

Malcolm Fairbairn (King's College London)

Pablo Fosalba (ICE and IEEC Barcelona)

Juan García-Bellido (U. Autónoma de Madrid)

Ruth Gregory (King's College London)

Elisa Maggio (Max Planck Institute Potsdam)

Daan Meerburg (Groningen U.)

Scott Melville (Queen Mary U. London)

Eva-Maria Mueller (U. Sussex)

Seshadri Nadathur (ICG, U. Portsmouth)

Johannes Noller (University College London)

Fernando Quevedo (Cambridge U.)

Kai Schmitz (U. Münster)

Gianmassimo Tasinato (Swansea U. Bologna U.)

Masahide Yamaguchi (Institute for Basic Science Daejeon)

Scientific organising Committee: K. Sravan Kumar • David Wands • Tessa Baker • Enrique Gaztañaga
